SAMSUNG

The Freestyle Portable Projector (2023)

Change the way you play

Top Features

Instant Set Up	Place The Freestyle where you want and it will automatically optimise the screen to correct skewed images - without you having to move the device.
100" Big Screen Experience	Experience up to 100 inches of brilliant picture quality with optimised colour and brightness to maximise your viewing experience.[1]
Premium 360° Sound	Movie night just hit the next level. The Freestyle's powerful 360° speaker delivers an immersive audio experience wherever you are sitting.[2]
Samsung Smart Experience	From streaming services to health apps, enjoy the best of Samsung Smart TV via your Freestyle. With no additional devices needed and an easy-to-navigate menu, simply sit back and lose yourself in a world of content.[3]

1 The Freestyle must be 79.5cm from the wall to project a 30" image and 260.4cm from the wall to project a 100" image. Picture quality is dependent on environmental factors such as wall surface, room brightness, source quality and more. For best results, recommend projecting on a flat white or bright monotone wall in a dark room.

2 Audio quality and performance may vary depending on environmental characteristics (e.g. room size, product placement and ceiling height) and quality of source content.

3 Internet connection and Samsung Account required. Data and subscription charges may apply. Apps and UI may be subject to change without notice. Agreement of the Smart Hub Terms and Conditions and Privacy Policy is required before use. Some services are available to watch after registration and subscription.
